Company Overview

Lusaka group is a pioneering, dynamic, professionally managed business organization that has strong experience in the field of readymade garments sector. Lusaka Group is a 100% export-oriented garments manufacturer. We are manufacturing all kinds of knit, woven, jacket & sweater items all over the year. Others than this, we produce and dye knit fabrics. We also have the setup for garments printing, embroidery & washing facility. We are a group of garments factories having all kinds of facilities for production. We have in house washing, printing, embroidery, own power generating facility and own designer from Europe. We have got 7 factories; each one is specialized for producing a particular item. We have 22 years of buying and sourcing experience. We sell garments at factory price and we are very strong in designing and collections. These are the present capacity of Lusaka group, of which the corporate Head office is situated at Uttara, Dhaka, Bangladesh and main production units are situated in Pukurpar, Zirabo, Ashulia, Savar, Dhaka, Bangladesh. Also, shirt & woven tops production unit is at Ibrahimpur, Dhaka, Bangladesh and another sweater manufacturing unit is located at Dinajpur a far northern district of rural Bangladesh. You are warmly welcomed to the world of Lusaka group.

Our Mission Statement

Our mission is to provide high quality uniform garment and one stop services (Apparel Sampling, Patterning, Grading and Development) to satisfy our client's needs through a range of efficient, effective manufacturing activities and delivered on a holistic basis. We are committed to offer comprehensive and client-centered products to meet the specific needs of our clients. We are dedicated to provide top quality products to our clients on a prompt basis. Also keep clients informed about our new technologies and innovations. We are authentic to Total Quality Management process, Social Standard and always strive to exceed our client's expectation. Lusaka Group have a strong mission that ensure Social Standard, ILO Convention, Amfori BSCI COC (All particular areas), SEDEX COC, and QMS & always strive to exceed our client's expectation without any violation.

Our Goal

Our goals are to provide services that are safe and ecologically sound that conduct our operations in an environmentally responsible method and create health and safety practices. Our working environment enable our employees and patrons to work in a safety loop. We are authentic to Total Quality Management process, Social Standard, ILO Convention, Amfori BSCI COC (All of Particular areas), SEDEX COC and always strive to exceed our client's expectation without any violation. Our main goal is labor standard, employees' benefit, OHS, workplace safety, anti-harassment and follows all of clients COC & Certification body COC, etc.

Our Vision

Engage effectively, responsibly and profitably in the international garments manufacturing sector. The organization seeks a high standard of performance and aims to maintain a long-term leadership position in the garments market segments in which it competes. Lusaka Group have a long-term vision for their employees and clients as ensure employees benefit, OHS, workplace safety, anti-harassment and follows all of clients COC, Amfori BSCI COC (All of particular areas as required) & Certification body COC, etc. that may establish a good relationship with employees and customers.

Risk Management

At Lusaka Group, we understand risk management and have under construction, a series of systems designed to minimize your risks. The types of information and assistance we can provide includes:

- Specialized equipment training and related OHS compliance.
- Environmentally friendly cleaning agents and systems.
- Quality accredited supply chain infrastructure.
- Extensive procurement reporting and analysis from our IT system.
- We buy from reputable and ethical manufacturers and agents that through their own quality control measures can assure us that what we sell will work.
- We seek external advice on Industry best practice.

Good Manufacturing Practice

FACILITY: LUSAKA GROUP has a wide experience in high quality garments manufacturing. It's a leading garment manufacturing group in Bangladesh.

Quality Management:

We are committed to our customers that we follow legality, safety, country legislation & quality standard. We have efficient quality assurance team in every phases of manufacturing.

Workplace Environment:

- ✓ Selecting materials for product design for recycling
- ✓ Avoidable zero pollution
